

**Before starting**, please take note that La Fiaschetteria is not a restaurant, but a 30sqm Alps tavern where sit down to eat and drink in a relaxed and convivial ambience.

We only listen to good music (well actually, for a pleasant coexistence, anyone is invited to eliminate any type of ringtone from phones and/or something like these), We don't go to the supermarket (so sometimes some products may be missing), **We don't have any coffee, but especially nothing here is fast!**

There's no any wizard tricks, so I remember that hot dishes are **cooked** by microwave ovens, 'cause I never had any solution at all to add a suction hood since I found this historic corner of Borgo S. Caterina.

However, when heated, hot dishes are exclusively made with precious collaborations with my personal butchers and/or partnership with local Chefs that I really appreciate.

We don't use any products of commercial gastronomy and/or industries food items!

BORGOSA CATERINA 8  
24124 BERGAMO

In fact, I remember you that since I opened La Fiaschetteria, I tried to give it a clear identity, that of an inn inspired by early twenty century years taverns, with few products, well maded, genuines and that is not so easy for you to find them on the shelves of large retailers.

By the way, sorry for my bad English and remember, a meal without wine is called breakfast.

**Gianni.**
